**Want to Volunteer in autism and
children?
Support ATT families ! ! !**

Autism Treatment Trust (ATT) is a fast growing and inspiring charity for autism treatment and research. Currently, we are ready to run a new project to support children with autism and their families. For this reason, we are looking for honest, and reliable, communicative and energetic volunteers, who would be enthusiastic to contribute to this project with their skills and personality for a few hours a week. All volunteers are provided with training, supervision and support. Applicants will be also disclosed.

If you are interested, please get in touch and e-mail your CV!

Sincerely,
ATT team
